

## Anton Molnar at l'Espace Pierre Cardin

With almost no time to breathe from his trip to Beverly Hills and his expedition in Acapulco, Anton Molnar (CLT member) came back just in time to Paris for his second annual exhibition at "l'Espace Pierre Cardin". Our talented artist from Budapest has been living in France since 1988 and has elected to live and work in a charming part of Burgundy, near Dijon. Pierre Cardin himself took great pleasure in attending Anton's new exhibition "Carnets de Voyage No 1" and congratulated him for his beautiful work. The great number of sales registered on the opening day is the clear confirmation of a well-deserved success for Anton's talent. His highly decorative work in a hyper-realism perspective has attracted an ever increasing number of respected collectors. We are pleased to support Anton and his darling wife Christina in the preparation of their upcoming exhibition in New-York in 1996. We are looking forward to "Carnet de Voyage No2" !
